

Afro Moon Dog Token

LightPaper

Our project started to save the life of cute little dogs suffering on the streets, ones that are abused, and neglected. Our team is made up of members living with dogs and can not imagine a life without them. But the reality is that there are tons of dogs that are suffering and we need to rescue them.

I LOVE

AFRO MOON DOG TOKEN

Everyday, dog rescue groups receive a call from all around the world to help rescue the dogs and hundreds of dogs are brought to the organization. Unfortunately, most of them are puppies. If they can't find a new home or new family, they will be killed. This is happening in the real world.

Dogs are killed every 10 minutes.

This is happening from the selfish reasons we humans have.

We need to change this reality.

We need your support to help and rescue these dogs.

The irresponsible behavior by owners of the dogs and cats are forcing them to be killed.

We need to stop and lose this insane world.

AfroMoonDog is a project to save as many dogs and cats as possible.

In addition, there are many organizations around the world that rescue these abandoned dogs and cats, just like our project, but unfortunately, most of them are having problems financially.

AfroMoonDog will support these organizations through crypto!

Announcing the Afro Governance Token, AGD

We are very proud to announce the Afro Governance Token(AGD) and would like to talk about it. The only way to earn AGD is by liquidity mining with the pair of AMD/ETH

The total supply of AGD is 11,111 which means that AGD is very scarce. By simply holding AGD, you are able to make a passive income. We will announce the exact date when to start liquidity mining, so please stay tuned.
